

## **Our evaluation has 3 levels.**

We will explain which level your dog received and why.

- **Pass**  
No major issues. Inherently comfortable in a social setting. Should settle into the routine after a few sessions.
- **Needs Work**  
Some issues such as shyness, nervousness/fear, or obedience issues (does not listen/lack of impulse control). These dogs might flourish with our routine and settle in nicely over time, but will require extra time.
- **Failed**  
Major issues such as aggression, excessive stress or extreme fear.  
Daycare is not an appropriate fit for these dogs and alternatives can be discussed.
